

PORTUGAL NOW UNDER THE RULE OF THE VICTORIOUS REVOLUTIONISTS

Royal Family Escapes by Boarding the Imperial Yacht and Departing For England --Lisbon in Peace After Riot and Bloodshed--A New Republic

It is reported at Lisbon today that the royal family, who fled from the capital at the outbreak of the revolution, are on board the imperial yacht Queen Amelie and are on their way to the English coast.

The Dowager Queen Maria will probably go to Italy, where the royal palace at Moncalieri has been placed at her disposal by her sister Princess Clotilde.

Premier de Sousa and Manuel Frazar, the minister of justice have relinquished the direction of affairs of state to provisional president Theophile Braga and his assistant in the new republican government.

Last night attacks were made by revolutionists upon the houses of prominent royalists, including J. L. Lacerda de Castro, former premier and leader of the progressives, but representatives of the provisional government soon quelled the popular excitement.

It is reported from Setubia, on the northeast of Lisbon, that the Eleventh infantry regiment has proclaimed the proclamation of the republic. The British cruiser New Castle, anchored off Lisbon, fired the usual salute this evening. The vessel did not salute when crossing the bar on her arrival here as the revolution was then in full swing.

King Manuel of Portugal is today an exile from his capital, which remains, for the moment at least, in the undisputed control of the revolutionists.

Public order has been restored at Lisbon and the populace are peacefully celebrating the advent of the republic proclaimed.

PEOPLE REJOICE IN LISBON.

Madrid, Oct. 6.—Further and more precise news of the revolution in Portugal has been anxiously awaited here today. A telegram from Padajose, on the frontier, this morning stated that the queen mother Amelie is known to be aboard her yacht.

The message confirmed earlier news regarding the formation of a provisional government under the presidency of Theophile Braga.

Advices from the Portuguese capital, the authenticity of which can be safely assumed, are meager. The report of continued fighting, however, is from a news source and may have escaped the censor.

Practically all the dispatches from Lisbon tonight conveyed the impression that the revolutionists were in complete control, and the populace had accepted the revolution as an accomplished fact. It is borne in mind, however, that just as the monarchy exercised a strict censorship over outgoing dispatches previous to the outbreak of the revolution, the revolutionists being in control of the cable and telegraph wires, are now in a position to dictate what is made known to the outside world. Accordingly further advices that may reach the frontier by post or messenger are awaited with interest.

One report which came today by way of Vizor declared that troops loyal to the king still held important points last evening and that continued fighting during the night was expected. It was admitted, however, that the Republicans had gotten the upper hand after thirty hours of fighting.

This dispatch said a moderate estimate of the losses on both sides was 200 dead and 450 wounded.

The city was but slightly damaged by the bombardment.

The republic was proclaimed amid frantic enthusiasm. Bands paraded the streets, followed by columns of armed persons who sang songs of liberty. The discipline of the revolutionists was excellent.

King Manuel, it is said, left the city aboard the yacht Queen Amelie, sailing for England.

Official advices received here at noon say the queen mother Amelie and the king's uncle, Prince Alfonso, the duke of Oporto, are still aboard the yacht Queen Amelie, and it is supposed the king is with them.

The prefect of Badajose province has communicated last Republican proclamation to the Spanish officials and another report from the frontier is that the superintendent of the railroad between Lisbon and Badajose has notified all station agents on the line of the change of government in Portugal.

time that the Spanish Republicans were plotting with the Portuguese Republicans for a simultaneous outbreak in both countries. October 13, the anniversary of Ferrera's execution, was the date tentatively chosen for the combined effort.

But the Spanish plotters, after canvassing the situation thoroughly, realized that they had little chance of success. Their efforts to win over officers of the army are said to have resulted in failure, while General Weyler plainly intimated that any attempt at revolution would be mercilessly put down.

Nevertheless the large body of Spanish people is convinced that that success of the Republicans in Portugal means a similar outbreak in Spain, with the probability of a counter revolutionary movement by the Carlists in the north.

LIKE A CITY OF THE DEAD.

Paris, Oct. 6.—A French correspondent, who has just reached Bayonne from Lisbon, has sent an account of the outbreak and the scenes which followed by telephone.

Lisbon, he says, is today like a city of the dead. The Republican flag floats triumphantly over every public building in the capital.

Contrary to first reports, this account of the outbreak declares that it was not the ships which began the bombardment of the palace. It was the Fourth artillery regiment, which began cannonading as soon as the rising within the city began. Meanwhile the First artillery regiment assisted an infantry regiment in attacking the municipal guard, which was holding the lower part of the city and preventing insurgent troops from joining their comrades.

Unofficial advices have reached Bayonne to the effect that the revolutionary movement has carried Oporto. Among those reported dead in Lisbon is Franca Borges, editor of the Mundo, a notable Republican journalist. He is said to have been killed at the gateway of the palace.

SAW CAVALRY CHARGES.

Vigo, Spain, Oct. 6.—The number of casualties resulting from the fighting in Lisbon is very large. The dead exceeded 100 in the early stages of the outbreak, according to authoritative advices brought here by the steamer Cape Blanco.

The steamer was lying off Lisbon when the rioting within the city began, and the first authoritative news of the outbreak reached the outside world in a wireless message from her captain. The steamer has just returned to this city after failing to land her passengers in Lisbon.

Persons on the deck of the steamer witnessed some stirring scenes in the streets along the water front.

Revolution Started in a Riot. Madrid, Oct. 6.—More detailed accounts of the revolutionary uprising in Lisbon are reaching this city. They indicate that the outbreak was more or less spontaneous. The revolution seems to have begun in a series of street riots, the rumor having been circulated that the death of Prof. Bombarda was due to political machinations.

Their rioting suppressed, the mob tried to break into several public buildings. The police resisted ineffectually. A priest, who endeavored to resist the mob, was thrown into a pond. The riot began to assume the proportions of a revolution.

The municipal guard was called upon to help the police and sallied out under arms. Then the people in the streets went to the barracks to acclaim their revolution. Many of the soldiers fraternized with them and forthwith the first regiment revolted openly, followed shortly by the Thirtieth regiment.

The result of which the king of Spain is a prisoner. Certain officers of the Thirtieth regiment tried to check the soldiers, but fell riddled with bullets.

SALT LAKE, Oct. 5.—When Mrs. Eva Karth, who was shot and seriously wounded last May by her husband, Melvin Karth, a butcher, who

then attempted suicide by cutting his throat, was called to testify against him this morning at his preliminary hearing before Judge J. J. Whitaker in police court, she broke down and wept.

Mrs. Karth left the court room as soon as the case was dismissed after catching the eye of her husband, who smiled and nodded to her as she left. Karth occupied a seat near his attorney. His neck was swathed in bandages from his last attempt to commit suicide.

CHAIRMEN OF THE TWO PARTIES

The Republicans of the county have selected as their chairman Samuel G. Dye, the county clerk. Headquarters have not been decided on, but Chairman Dye stated this morning that the matter would be brought to the attention of the central committee Saturday evening. He stated that it is likely that headquarters will be established in the George Maule building on Washington avenue, between Twenty-third and Twenty-fourth streets, only a few doors north of the First National Bank building. Mr. Dye has not decided on his secretary.

The Democratic central committee will meet in the office of C. C. Richards, candidate for the supreme bench, this evening for the purpose of electing a county organization. The leaders of the party state that they have no idea who will be selected to conduct the campaign, but the name of W. W. Browning is being used quite freely in this connection.

PROMONTORY SERVES ITS PURPOSE

The steamer Promontory, the largest steamboat that ever forged its way through the heavy waters of Great Salt Lake, now lies dismantled and forever useless on the beach near the point after which the ship was christened. The machinery and all other portable fixtures have been removed, and the bare hull has been abandoned to the elements.

The vessel was a stern wheeler and was built in a San Francisco yard eight years ago. It was shipped in sections to the lake by the Southern Pacific railroad and after being put together was launched by the railroad company to assist in the work of building the Ogden-Lucia cutoff. For three years it was used in carrying railroad ties between Promontory Point and Bagley and its twenty-two state rooms were used by the men in charge of the vessel and the work on the trestle and fill-in.

The ship was equipped with electric lights and many other conveniences that were not accessible to the men camping on the land. The boat cost the railroad company about \$25,000 and was practically useless when the building of the cutoff was completed. The vessel was left lying idle near Promontory Point for nearly five years, being used on rare occasions for semi-pleasure trips by railroad officials. Sometime ago there was a deal on to sell the boat to the Saltair company, to be used for excursion purposes at the summer resort, but the deal was never consummated and last week the railroad ordered that the boat be dismantled. The work of stripping the vessel of its machinery was completed yesterday and today the erstwhile monarch of the lake lies supine upon the beach.

CHICAGO PLAYERS
DEFEAT JAPANESE
Tokio, Oct. 6.—Before 16,000 spectators, which included Ambassador O'Brien, the University of Chicago baseball team today defeated the Keio university, 3 to 1.

INTERURBAN IS A GO;
AQUEDUCT CONTRACT LET
Provo, Oct. 5.—At a special meeting of the city council tonight, a hundred year franchise was granted to Evans, Chipman and others to build and operate an electric railway line through this city. The line must be completed within three years.

When I returned home yesterday, Ogden surely looked good to me and I could plainly see that I had not fully understood the progress being made in Ogden in the building line. During the past few days he has had occasion to visit a number of neighboring cities to ascertain the exact status in relation to public and private improvements, and he is pleased to state upon his return that Ogden is beating them all.

"Ogden without doing is having the most substantial and rapid building growth of any city I have visited while away. I visited only Utah towns," said Mr. O'Neill, "but I think the building operations in Utah towns are a fair index to what is going on in other western cities, and it is certain that Ogden is far ahead of them all. I spent considerable time in Salt Lake and found but little building there at this time. It looks to me as though building operations there are pretty well spent."

plotted and in running order through the city within three years, and the limit of fares to be charged must not exceed 5 cents within the corporate limits of the city.

The James Kennedy Construction company was awarded the contract for the aqueduct and pipe line for the new water system that is to be established. The contract is for \$98,204.65.

FREIGHT WRECK TIES UP TRAFFIC

Sharon, Mass., Oct. 6.—All traffic on the New York, New Haven & Hartford railroad was held up at this point early today by a wreck due to a collision between a fast mail train and a freight. An engineer and a brakeman suffered injuries which are probably fatal.

The freight was backing from a siding on to the main line when the mail train came along and telescoped two of the freight cars.

HUNTING ACCIDENT

Victims of Bullets in
the Woods and on
the Lakes

Trinidad, Colo., Oct. 6.—The fourth death of the big game season, which opened in Colorado last Saturday, occurred fifty miles northwest of here yesterday when John Herlick of La Cota, was shot and killed by Edward Riley, his hunting companion, who mistook Herlick for a deer.

Pittsburg, N. H., Oct. 6.—News of the first fatality of the hunting season in New Hampshire reached the city today. James Scott, a hunter from Massachusetts, was shot and killed while deer hunting near here. The identity of the person who fired the shot has not been learned.

Bangor, Me., Oct. 6.—Alfred Lane of Hainesville, in Aroostook county, was mistaken for a deer and killed yesterday by a hunting companion. It was the first fatality of the season in the Maine woods.

RAIN STORMS IN SOUTHERN STATES

Louisville, Ky., Oct. 6.—Rain, which has soaked Kentucky, Ohio and southern Indiana for practically two days and nights, continues today in many sections of those states and has extended southward into Tennessee, northern Arkansas and Mississippi.

The Ohio river is rising rapidly. Railroad traffic in several sections of the south is hampered owing to washouts, and there has been considerable damage to farm lands.

All lowlands in the vicinity of Louisville have been submerged for 24 hours.

RECOVER BODY OF FORESTRY OFFICIAL

MISSOULA, Mont., Oct. 5.—The body of F. W. Miken, the forestry official, who has been lost in the hills southeast of this place since last Sunday, was found at the head of Woodchuck creek by a searching party this noon. Information received by telephone conveys no particulars of the finding other than that the man had wandered some distance from the place where his companions left him last Sunday to seek aid when he was taken ill. Miken suffered from Bright's disease.

NO CITY OF GREATER GROWTH

Contractor J. P. O'Neill says one has to leave home in order to thoroughly appreciate the progress being made in Ogden in the building line. During the past few days he has had occasion to visit a number of neighboring cities to ascertain the exact status in relation to public and private improvements, and he is pleased to state upon his return that Ogden is beating them all.

"Ogden without doing is having the most substantial and rapid building growth of any city I have visited while away. I visited only Utah towns," said Mr. O'Neill, "but I think the building operations in Utah towns are a fair index to what is going on in other western cities, and it is certain that Ogden is far ahead of them all. I spent considerable time in Salt Lake and found but little building there at this time. It looks to me as though building operations there are pretty well spent."

REPUBLICAN IS HOPEFUL

Sen. Smith of Michigan
Sees a Bright Light
Just Ahead

Detroit, Mich., Oct. 6.—United States Senator William Alden Smith, temporary chairman of the Republican state convention, in his speech before the gathering, discussing the present tariff, declared that the dissection in the Republican ranks would not prevent victory at the polls in the coming election and coupled President Taft and Theodore Roosevelt as the party leaders.

"The new tariff law," said he, "has been the object of much unjust criticism, and misrepresentation. The high cost of living cannot be charged to it; where the rate of duty was increased, the price of the product has remained the same, or it has decreased in cost, and in scores of instances the tariff reduction in the Payne bill has been followed by increased price to the consumer."

"We have created a tariff commission with unusual and far reaching authority, have given it ample means to prosecute its researches and when, in the future, changes are desired, the representatives of the people can consider them in the light of wider and more accurate information which the commission can supply."

"I feel that the powers of the commission should be extended and, if possible, the personnel improved. Such a commission should be non-partisan in character and composed of well known men, whose standing and character will instantly command the confidence of the country."

"Some recent elections have given politicians alarm. I do not think we have lost a battle which we should have won. In Massachusetts the Republicans nominated a Democrat for congress and the Democrats nominated a wayward Republican who was elected. In New York the Republicans named a candidate who had dominated his city with a fist of iron and publicly invited defeat which was deserved."

"In Maine the people sought in vain from our party for a primary law and turned to our opponents in the hope that they might get it. The age of bossism is passed. Intelligent and progressive leadership may still light the way."

EVERS HAS BADLY INJURED LEG

Chicago, Oct. 6.—Johnny Evers, the Chicago National's crack second baseman, had his leg reset yesterday at the West Side hospital. A number of his teammates were located in the gallery of the operating room and watched the setting of the broken bone, and when Dr. Davis, who conducted the operation, declared that it was one of the worst breaks he ever saw in any man's leg, they all left the hospital with the idea that Evers might never get well enough to come back and play baseball.

For forty-eight hours at least Evers will have to lie with his leg elevated at an angle of 45 degrees. Before he can move the injured member, the plaster cast in which it is set will have to be hardened. Some unforeseen accident might occur between now and the time of healing, and such a thing is possible, according to Dr. Davis and his assistants. He acknowledged the break in Evers' leg is the most complicated he ever had to deal with, and while the physicians feel certain that they will be able to turn him out in good shape, six chances in ten are against the speedy second baseman.

WOMAN HUNTER FATALLY SHOT

Tacoma, Wash., Oct. 6.—Mrs. Ewan Sampson, one of the best women hunters in the northwest, was fatally shot today while hunting deer at Silver Lake, 25 miles south of Tacoma. She died several hours later. She was in a canoe on the lake, when Peter Peterson, a young member of her husband's party, shot at a deer on shore. The bullet hit Mrs. Sampson far out on the lake.

TELEGRAPHERS GET INCREASE.

Montreal, Oct. 6.—The board of arbitration in the dispute between the Grand Trunk railway and its telegraphers, which has been sitting in this city, has concluded its work. The award, which is binding on both parties, gives the men a small increase in pay with a number of improvements in working conditions.

MURDER CALLS STOCK EXPERT BACK HOME

News of Tragedy Received by Ed Patterson, One of Judges at the State Fair.

Salt Lake, Oct. 6.—Ed Patterson, manager of the world-famous Ravenswood stock farm, near Bunceton, Mo., who is the judge of blooded cattle at the Utah state fair, has been called home as a result of a tragedy. Mr. Patterson received word Wednesday that the wife of the foreman of the Ravenswood stock farm had been murdered, and he will hasten home to see if he can do anything in connection with the apprehension of the murderer.

The woman who met a violent

death was the wife of Ed Maddex, one of the best known livestock men in Missouri, who has been foreman of the Ravenswood farm for years. She was found in the barn with her throat cut and had been dead for several hours. Mr. Maddex had left the house early in the morning, leaving Mrs. Maddex alone. When he returned he could not find his wife in the house. Her pet dog was there, however, and Mr. Maddex said to the intelligent little animal, "Where is 'Mec?' this being Mr. Maddex's pet name for his wife."

The dog immediately began to jump and bark and led the way to the barn, where the unfortunate woman was found with her throat cut.

The coroner's jury found that she had been murdered by an unknown person. It was evident that she had been called to the barn hurriedly, as some household work, upon which she had been engaged in the house, was found by her dead body.

WIPED OUT BY FIRES

Towns Destroyed and
Lives Lost by Forest
Conflagration

Winnipeg, Man., Oct. 6.—The latest report from the forest fires across the border in Minnesota are that the towns of Graceton, Williams, Hair Springs and Pitt, along the Canadian Northern railway, were wiped out by fire.

A school teacher and a child at Williams are reported—burned to death. Three residents of Graceton are reported missing.

BASEBALL GAME
GOING TO DOGS

Chicago, Oct. 6.—A. G. Spalding, candidate for United States senator from California and a veteran of the baseball game, called at the headquarters of the Chicago National league team for the purpose of congratulating Manager Frank Chance, President C. M. Murphy and members of the West Side team for winning the 1910 pennant.

During his visit, Mr. Spalding was presented with the baseball he pitched forty years ago this summer, when the Chicago White Sox defeated the Forest City team at Rockford. Mr. Spalding expressed the opinion that the baseball season should be shortened.

"I am heartily in accord with the stand taken by President Johnson of the American league, and to my notion the ideal baseball season should start late in April and end October 1," said Mr. Spalding. "Then the world's series, the greatest event of the baseball year, would be started under perfect weather conditions. Mark my words, the game is going to the dogs unless some radical changes are made along these lines."

FOUR UMPIRES AT WORLD'S SERIES

Chicago, Oct. 6.—But 6,000 seats at the Chicago National league ball park will be reserved for the world's championship series games, and no reservations will be made by mail.

This decision was reached yesterday by Robert McRoy, secretary of the American league, in charge of the seat sales here, and President Murphy of the Chicago team.

As a consequence, the recommendation sent the national commission Tuesday, asking that the entire grandstand be reserved, will be abandoned. All four umpires assigned to the world's series will officiate in each game. One will rule behind the bat.

G. A. IVERSON WINS FOR STATE SENATOR

Price, Utah, Oct. 5.—G. A. Iverson defeated late this evening, on the nineteenth ballot, for state senator from this district, Alonzo Brinkhoff, the incumbent, after a hard-fought battle, lasting from 2 o'clock this afternoon.

In the race was also Don A. Cotton of Utah county, present register of the United States land office at Ver-nal.

Iverson is president of the Carbon stake and a former stenographer for Hon. Jacob Johnson of Sanpete county for several years judge of the Seventh judicial circuit court.

BUTTE CITY'S CENSUS RETURNS

Washington, Oct. 6.—Population statistics given out today: Butte, Mont., 39,165, an increase of 8,695, or 28.5 per cent over 30,470 in 1900.

Kansas City, Kan., 82,331, an increase of 29,815, or 36.1 per cent over 52,516 in 1900.

MANCHESTER MILLS TO REOPEN MONDAY

Manchester, Eng., Oct. 6.—The trouble between the Federation of Master Cotton Spinners, which resulted in the lock-out of the 130,000 operatives, has been settled today and the mills will be re-opened Monday.

Sugar and Coffee. New York, Oct. 6.—Raw sugar, steady; molasses, 89 cent; centrifugal, 95 cent; 400; molasses sugar, 89 cent; 3.25. Refined steady. Coffee—Spot, firm.

EIGHT MEN INVOLVED

Rewards in Times Out-
rage Now Aggregate
Sum of \$130,000

Los Angeles, Oct. 6.—Rewards offered for the apprehension of the dynamiters who blew up the Times building early last Saturday morning were raised today to more than an aggregate of \$130,000 from the \$100,000 rewards previously offered. The amount of this reward is greater than any offered in recent criminal history.

It was learned from the police today that at least eight men were believed to have been involved in the plot to destroy the Times plant and the homes of General Otis and of F. J. Zeehandelaar.

Efforts to apprehend the dynamiters still center about San Francisco, and the mining regions of the north, whence the men who actually perpetrated the outrage are believed to have come.

KILLED A GIRL AND THEN HIMSELF

Hartley, Ia., Oct. 6.—The body of George Godfrey, who shot and killed Miss Rika Amelsberg near here last evening because she had resented his attentions, was found dead this morning in a cornfield near the spot where he had murdered the girl.

Godfrey, who until recently had been employed on the Amelsberg farm, had been making love to the girl without encouragement. Last night he met the girl near the house. She called to her father for assistance, but before the father could reach her, Godfrey fired five shots into the girl's body.

EVELYN THAW IS WITHOUT FUNDS

New York, Oct. 6.—Because Evelyn Thaw, wife of Harry K. Thaw, is without funds to pay the costs of prosecution, a suit that she instituted nearly two years ago against James B. Regan of the Knickerbocker hotel for \$50,000 damages, was dismissed yesterday in the supreme court.

Mrs. Thaw was evicted from the grill room of the hotel while dining with a friend, and sued on the ground that her dignity had suffered.

Mrs. Thaw's counsel announced that she was without funds.

WORLD'S MARKETS

CHICAGO PRODUCE.
Chicago, Oct. 6.—Butter steady; creameries, 28; dairies, 26.
Eggs steady; receipts, 3,675 cases; at market, cases included, 18 1/2 @ 21 1/2; firsts, 23; primes firsts, 25.
Cheese steady; dairies, 15 1/2 @ 16 1/2; twins, 14 1/2 @ 15; young Americas, 16 1/2; long horns, 16 1/2.

Chicago.
Chicago, Oct. 6.—Cattle—Receipts estimated at 7,000 head; market was strong; heavy, 4.70 @ 4.75; Texas steers, 4.10 @ 5.00; western steers, 4.00 @ 4.75; stockers and feeders, 3.40 @ 5.75; cows and heifers, 2.25 @ 6.40; calves, 7.50 @ 10.00.

Hogs—Receipts estimated at 12,000 head; market 10c up; light, 8.50 @ 9.20; mixed, 8.40 @ 8.75; heavy, 8.15 @ 8.50; bulk of sales, 8.40 @ 8.95; pigs, 8.25 @ 9.05; bulk of sales, 8.05 @ 8.85.

Sheep—Receipts estimated at 40,000 head; market steady; native, 2.50 @ 4.25; western, 2.75 @ 4.20; yearlings, 4.30 @ 5.50; native lambs, 4.50 @ 7.00; western, 4.75 @ 7.00.

Omaha.
Omaha, Oct. 6.—Cattle—Receipts, 4,200; steady to 10c higher; native ste
